BAKING

Fundamentals in Baking

Training Module 1

Gellibeh F. Oberes, LPT, MBA

OBJECTIVES

1. Identify the use of baking tools equipment and ingredients
2. Application of baking processes
3. Prepare a cake
4. Appreciation of opportunities available in baking and its importance to every consumers life

ASSUMPTIONS

- Baking is an art of mixing
- Can use any ingredients

Let’s find out!

BAKING TOOLS

Measuring cups | Sifter | Spatula | Measuring Spoons | Whisker |

BAKING PROCESSES

1. Measuring
2. Sifting
3. Mixing

CHOCOLATE BANANA CAKE

1 ¼ cup mashed bananas

1 cup sugar

½ cup unsalted butter soft or ½ cup oil

2 large eggs

½ tsp vanilla extract

1 cup all purpose flour

1 tsp baking soda

½ tsp salt

½ cup mini semi-sweet chocolate chips

CHOCOLATE BANANA CAKE

1. Pre-heat oven @ 350F or 175C.
2. Whisk together banana, sugar and butter
3. Whisk eggs, one at a time and vanilla until the batter is soft and creamy
4. Sift flours, baking soda and salt directly over the batter.
5. Bake for 33-35 minutes until skewer comes out clean.

CHOCOLATE BANANA CAKE

QUESTIONS?

CHOCOLATE BANANA CAKE

1 ¼ cup mashed bananas

1 cup sugar

½ cup unsalted butter soft or ½ cup oil

2 large eggs

½ tsp vanilla extract

1 cup all purpose flour

1 tsp baking soda

½ tsp salt

½ cup mini semi-sweet chocolate chips

1. Pre-heat oven @ 350F or 175C.
2. Whisk together banana, sugar and butter
3. Whisk eggs, one at a time and vanilla until the batter is soft and creamy
4. Sift flours, baking soda and salt directly over the batter.
5. Bake for 33-35 minutes until skewer comes out clean.

ASSUMPTIONS

- Baking is an art of mixing
- Can use any ingredients

Note: Every cake has a story to tell. It’s not about mixing but a combination of related skill sets and processes and the use of appropriate ingredients affects the result of the cake.

“Make sweet things happen”

THANK YOU!
