OBSERVATION AND FINDINGS

CHAN | OBERA| OBERES|ROSALES| SALUBRE

OBSERVATION AND FINDINGS

- Vision and mission statement of the firm is outdated
- Controller reports to the accounting manager and not directly to the President
- Structure is weak in nature for it disregards the first two out of the three layers of defense of an organization which is the management controls, controller, and audit.
- Controller is not directly involved in preparation of budget and negotiation of the approved budget depends on the discretion of the upper management.

OBSERVATION AND FINDINGS

- bias performance evaluation because the head of the department is the only one that gives out the rating.
- abides by the rules and regulations related to R.A. No. 7160 that govern the operations of tourist establishments.
- quality control systems, processes, and procedures comply with the st andards of the industry and the law of the country
- violation of the consumer act of the Philippines or R.A. 7394

Silver Summit Hotel

CONCLUSION AND RECOMMENDATIONS

CONCLUSION AND RECOMMENDATIONS

- Management review and defines the Controllership functions
- Hire a Controller
- Integration of IT to Controllership Functions

CONCLUSION AND RECOMMENDATIONS

Recommendations	Course of Action	Time Frame	Departments Involved
1.Management review and defines the Controllership functions	Review and develop new functions of the prospect Controller aligned with the mission and vision of Silver Summit Hotel.The management has to implement multiple levels of control and establish independence of the function/position of the controller. Advantage: An efficient and well defined control system with the new controller Disadvantage: Limited applicants with the new qualification guidelines and a high salary grade to attract the capable ones.	ASAP	Administration Human Resource Management

CONCLUSION AND RECOMMENDATIONS

Recommendations	Course of Action	Time Frame	Departments Involved
2. Hire a Controller	Selection of the Controller who will fit to the job description based from the qualification guidelines and matrix in hiring a controller. Advantage: A defined and an independent function on the role of the controller for Silver Summit Hotel directly reporting to the management. Disadvantage: High Salary Grade which increases operating cost of the company.	ASAP	Administration Human Resource Management

CONCLUSION AND RECOMMENDATIONS

Recommendations	Course of Action	Time Frame	Departments Involved
3. Integration of IT to Controllership Functions	Develop an integrated system of monitoring and evaluating metrics for measuring the performance of Silver Summit hotel in relation to customer, management, and revenue generation with a certain level of control for the accessibility of its information and vulnerability. Advantage: Integrated processes, timely feedback, operational efficiency and decreases cost. Disadvantage: High investment	2-5 years	Administration Information Technology Sales

Job Functions	Recommendations
Planning	Align the goals of the company with the Mission and Vision of Silver Summit Hotel. The conduct of the meeting involves the following: • Assess and revisit the mission and vision statement of Silver Summit Hotel • Develop a periodic audit schedules, work paper preparation and additional assistance in completing audit reports • Create an annual budgeting plan and process schedule involving all departments of Silver Summit Hotel • Establish a set of controls to assure the management on the proper documentation of business transactions. • Periodic review of costs, packages and revenue generated by Silver Summit Hotel. • Assessment of the policies and procedures in relation to the control of the company assets.
Organizing	Establish and Define layers of control for Silver Summit Hotel: 1. Management Control - the management redefines the structure and levels of management. Tone of the top is very important in organizing and standardizing the processes of the hotel. 2. Controller - separate and an independent function in an organization directly reporting to the management 3. Internal Audit- an independent department that assures operations are done efficiently.
Directing	Established controls must also be communicated to the different department to align its process and conduct monthly reviews to assess the effectiveness of its controls. Create an institutionalized tipping system to regulate the tips of customers and share the tips among employees to motivate each employee to do their share in contributing to the efficiency of services in the hotel.

Job Functions	Recommendations
Measuring	Assessment of the existing performance reviews and recommend improvements of the existing measures to monitor assets of the company, improve customer satisfaction, motivate employees and maximize returns.
Financial Analysis	Controller sets the control on the preparation of financial reports, interpretation, analysis and recommendations for the future undertakings beneficial for the company.
Process Analysis	Review and evaluate processes periodically to identify performance needing immediate intervention to maintain or improve its processes in delivering value to customers and accomplish the reports needed to give a timely feedback. Investment in IT to enhance and add value to the existing hotel services and improvement of internal processes to increase customer satisfaction.
